Michigan Grown **GLADIOLUS BULBS**

In buying direct from the grower, you have the assurance of quality bulbs grown especially for the wholesale trade from young, vigorous stock. You are assured of high-crowned true-to-name bulbs, accurately graded, hand selected; clean and healthy—thrips free. These bulbs cannot fail to produce top grade flowers.

We have marked on this list such varieties as are recommended for forcing. It is our suggestion that you use only first size bulbs for this purpose. For best results plant after January 15th.

For planting in cold frames either first or second size bulbs should be used. Many successful florists use third size bulbs for main crop outside, with second size bulbs for extra early or extra late.

DWARF BEDDING DAHLIAS
This interesting group of Dahlias has remarkable value for garden planting and home decoration. The plants form compact bushes, seldom more than two feet high. They begin blooming when only a foot high and flower continuously from early summer until frost. We offer an excellent mixture of single, semi-double and double types in dazzling colors. 75c per doz.; \$5.00 per 100; \$40.00 per 1000.
